

**IM-TWIN: from Intrinsic Motivations  
to Transitional Wearable INTelligent  
companions for autism spectrum disorder**  
*a European funded project*

***Professional video on project, stage 1***  
**Deliverable 6.2**

This project has received funding  
from the European Union's Horizon 2020  
Research and Innovation Program  
Under Grant Agreement No 952095.

Project duration 24 months (November 2020, October 2022),  
Consortium: Consiglio Nazionale delle Ricerche (ITA),  
Universiteit Utrecht (NLD), Centre de Recherches  
Interdisciplinaires (FRA), Università degli Studi di Roma  
La Sapienza (ITA), Plux-Wireless Biosignals S.A. (PRT).

## Deliverable data

<b>Work Package:</b>	6 Management and dissemination.
<b>Work Package leader:</b>	CNR-ISTC
<b>Deliverable beneficiary:</b>	CNR-ISTC
<b>Dissemination level:</b>	Public
<b>Due date:</b>	31 <sup>th</sup> January (Month 3)
<b>Type:</b>	Websites, patents filings, etc.
<b>Authors:</b>	M. Schembri, G. Baldassarre

## Acronyms of partners

CNR-ISTC	Consiglio Nazionale delle Ricerche, Istituto di Scienze e Tecnologie della Cognizione (Italy)
UU	Universiteit Utrecht (The Netherlands)
CRI	Centre de Recherches Interdisciplinaires (France)
LA SAPIENZA	Università degli Studi di Roma La Sapienza (Italy)
PLUX	Plux - Wireless Biosignals S.A. (Portugal)

## Table of contents

<b>1. Overview of the deliverable</b>	<b>4</b>
<b>2. A brief description of the video</b>	<b>4</b>
<b>3. Future developments</b>	<b>4</b>

## 1. Overview of the deliverable

This deliverable presents the first promotional video on the project. The video introduces the viewer to IM-TWIN, giving a general overview of the project objectives and scopes.

## 2. A brief description of the video

The video, lasting 2.59 minutes, has been uploaded on *Youtube* platform to reach the broadest audience ( see [www.youtube.com/watch?v=sUnJwaT1Xi8](http://www.youtube.com/watch?v=sUnJwaT1Xi8) ). The caption on the page reports the main information about the project:

*IM-TWIN is an interdisciplinary project (involving computer scientists, experimental psychologists, designers, neurodevelopmental psychiatrists and therapists), which aims to develop new interactive technologies to support the early diagnosis and the early therapy of children with Autism Spectrum Disorders (or ASD) and other neurodevelopmental conditions, characterised by impairments in the social, emotional and communicative areas.*

*More info on the official project website [www.im-twin.eu](http://www.im-twin.eu) The project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 952095.*

The video was then linked to the dedicated website page <https://im-twin.eu/video/>.

## 3. Future developments

A second promotional video, describing the final results of the whole project, will be produced on month 24 (31<sup>th</sup> October 2022), at the end of IM-TWIN proposal.

The complete set of the promotional videos that will be realised during the project, is described in the following time-ordered list:

- **D6.4 Professional video on PlusMe as educational toy**, due at month 12 (31 October 2021);
- **D6.5 Professional video on IM-TWIN as a therapeutic tool**, due at month 18 (30 April 2022).
- **D6.3 Professional video on project, stage 2**, due at month 24 (31 October 2022);
